Services as an Affiliate of MENTOR National

As an Affiliate of MENTOR, MMP seeks to promote information and awareness of the current state of the mentoring field in order to identify areas of strengths and challenges, to better understand the needs of the field, and to work collectively to improve and mobilize our network to best serve the young people of the Commonwealth. By providing multi-level capacity building support (training, technical assistance, financial support), MMP lifts up the field and drives investment and public attention to the benefits of mentoring and the need for human and financial capital to grow the quality and quantity of youth adult relationships in Massachusetts.
